Medical Record

Record ID: MR41780

Date: November 27, 2025 at 09:51 PM

Patient Information

Name: Test Patient

ID: P1047

Doctor Information

Name: Dr. John Smith

ID: D1024

Chief Complaint:

Severe headache and fever

Assessment:

Viral meningitis vs. bacterial meningitis, with consideration for other differential diagnoses such as encephalitis or a migraine headache

Treatment Plan:

Order a STAT CT scan of the head, followed by a lumbar puncture for cerebrospinal fluid analysis. Administer acetaminophen for fever control and consider starting empiric antibiotics pending further evaluation.

Vital Signs:

Vital	Value
Blood Pressure	140/90 mmHg
Heart Rate	88 bpm
Temperature	100.4 °F
Respiratory Rate	20 /min
Oxygen Saturation	96 %
